## VENUE HUNTER

---

One of the most difficult goals when organizing your wedding is finding the venue. How to realize which location is YOUR location?

Our staff can provide you with:

- Selection of no more than 8 potential venues for the wedding party
- Selection of local near-by venues for the ceremony
- Complete budget for approx. your guests number per each venue
- Detailed itinerary for the visit in Italy (phone number and contact details of each venue)

This program can be applied in two ways:

1. Creation of an itinerary that you can follow together with our staff that will accompany you, location after location.

Detailed budget per each location and re-cap meeting at the end of the tour.

This first program's costs will not be credited towards your preferred wedding program.

2. Creation of an itinerary that the couples can follow on their own, visiting venues and locations after a thorough planning of meeting with the events' managers of the locations.

Detailed budget per each location & re-cap meeting with the wedding planner after the tour.

This program's cost will credit towards your preferred wedding program.

Venue scouting fee refers only to one single region / area – couples deciding to explore more than one region (i.e. Lakes + Tuscany) are granted 30% off on the total price of the two-venue scouting services booked.
